She passed quietly away, cheered by the presence of her sorrowing mother, sister and brothers, and surrounded by devoted personal friends.

do with a groom, and nothing with a bride.

It is properly bride-groom, groom or bride, in Anglo-Saxon, meaning man, and bride meaning a married man, whose eggs they preserve through the winter, they keep several other domesticated insects, belonging to over 300 species.

True Humor.

Humor and vulgarity are not acquainted; they are strangers. A smile expresses intellectual refinement; the horse laugh which arises from the low joke is vulgar.

Not infrequently a man comes along and wants the Register for \$1 or \$1.25 a year because he can get the Register for \$1 or the Courier-Journal for \$1.25.

Rev. M. P. Remington, of Iowa, N.Y., writes: "From too close application to my calling, my health underwent a severe strain. I felt a weakness in every part of my body. My digestion especially failed me, and my nerves became all unstrung. Recreation did not do me proper benefit. Finally, on the recommendation of a brother minister, I tried Brown's Iron Bitters. It has made me feel better and stronger than I ever before felt since I was a young man."

—A gentleman who does not desire his name to be known, but who is a very ardent friend of the HERALD, will give the young lady who will get us up a club of ten subscribers a solid gold ring, either plain or with set, to be of any kind selected by the young lady herself, and not to exceed ten dollars in value. An extensive catalogue will be furnished to select from. If more than one young lady gets up a club of ten, the ring will of course go to the largest club. The gentleman is not in any way connected with the paper, and is married. What young lady will get the ring?

—Democrats, remember the precinct conventions meet Saturday to select delegates to the county convention to be held at Hartford Monday, Sept. 4th, to select delegates to the Elizabethtown Congressional Convention, which meets Sept. 13th. The precinct vote will be on the basis of one delegate for every twenty-five and fraction over twelve Democratic votes cast. Let every Democrat turn out.

—Read the preliminary list and explanation of the manner of drawing which you will find elsewhere. The list is a most liberal one and cannot fail to please all concerned. We will promise however, if receipts are liberal enough that we will make out a supplemental list containing articles of use and value, and present it on or before the day of the drawing. Of course our friends must help us or we will even lose money on what we have already given. We retain the right to enlarge but not to decrease our list.

—We hope our friends everywhere will come to our help at once with the amounts they owe us, or if they do not owe us, with a year's subscription. The large premium list has cost us every cent it calls for and more besides as in some instances we have had to pay freight on the articles. We cannot afford to be liberal with you unless you are liberal with us, and we only ask you for a very small amount while we are giving away a large sum. Come and help us and we will not only turn you right in money matters, but will give you a better paper than you have ever had before.

—The Building Committee of the Hartford Baptist church have received from C. A. Curdin, architect, corner Main and Bullitt streets, Louisville, Ky., a full and complete plan of the Baptist church to be built at this place. Judging from the accuracy and skill displayed in the drawings, we regard Mr. Curdin as a No. 1 architect. His liberality in the matter is worthy of commendation, having drawn the plans and presented them to the church as his donation in aid of the enterprise. We cheerfully commend him to all persons in need of a skilled and reliable architect.

—We are of the opinion that about the most interesting article in the paper this morning is the announcement of our drawing. It has been in everybody's mouth for months, and every one has been on tip-toe with expectation. Here it is at last. The late owners of the HERALD intended to have the drawing some time ago, but owing to adverse circumstances and the ill health and misfortune of the senior partner, their hopes were blasted. It now remains for us to enlarge and carry out their plans. How we shall do this, this paper will tell you. Read every line carefully and resolve to help us, and try to help yourself by renewing or subscribing for the paper.

KALAMAZOO, MICH., Feb. 2, '82.

I know Hop Bitters will bear recommendation honestly. All who use them confer upon them the highest encomiums, and give them credit for making cures—all the proprietors claim for them. I have kept them since they were first offered to the public. They took high rank from the first, and maintained it, and are more called for than all others combined. So long as they keep their high reputation for purity and usefulness, I shall continue to recommend them—something I have never before done with any other patent medicine.

—Summer is the season of the year above all others when the system is liable to get out of order and severe and dangerous bilious attacks frequently follow. The principal cause of nearly all sickness at this time of the year has its origin in a disordered liver, the largest organ in the body, which if not regulated in time, great suffering, wretchedness and DEATH will ensue. A little precaution taken in time in the shape of a reliable and efficacious Liver Regulator will in most cases prevent illness and fatal consequences. No medicine in modern times has gained a wider reputation than Simmons' Liver Regulator, manufactured by J. C. ZIEGLER & CO. This justly celebrated medicine regulates the liver, promotes digestion and fortifies the system against malarial diseases.

—Wool wanted at Anderson's Bazaar.

—Sweet potatoes wanted, at the Red Front.

—All kinds of groceries and provisions at risk bottom prices at the Red Front.

—We shall be much obliged by any one who can and will furnish a copy of the HERALD of February 22nd, 1882.

—More bargains at Anderson's Bazaar than ever before in ladies dress goods, shoes, linens, jeans and in fact everything.

—R. P. Howe continues to have a big run in furniture. He has the cheapest and most extensive stock in the Green River Country, and that explains it all.

—Having used T. E. Hickey's pills I endorse them as a safe, easy, and mild and pleasant.

A. M. ALDERSON, M. D.

—The protracted meeting which began ten days ago at this place is still in progress. Considerable interest is being manifested although the conversions to date have been but few in number.

—Mr. S. W. Kirby, of Sulphur Springs, has moved to town and is living in the Hall house. He will be sworn in as Deputy County Clerk next Monday.

—Rev. J. H. Spurlin, of Laramie, Ky., writes: That childs have been and people are calling for T. E. Hickey's pills on every side, as they find them the best remedy they can get. 21-4f.

—Mrs. T. P. Monroe, of Hernando, Miss., will take charge of the Art Department of Hartford College the ensuing year. Mrs. Monroe is recommended as a lady of superior culture, and excellent attainments in her department.

—Mr. J. C. Wilson is opening up a family grocery store on Market street next door to Kimbley's drug store. Mr. Wilson will meet all the requirements of customers and we predict a first-class business for him.

—The Master of the State Grange wants the address of the Masters of dormant Granges in this and adjoining counties. Address: JAMES L. NEAL, HARRISBURG, Kentucky.

—E. L. Sullenger would like to feed your horse for you when you come to town. He is at the Crow stable, where he will be glad to see all his old friends. Commercial men carried anywhere. Horses and buggies for hire at all times.

—Master Hugh Tracy has constructed a bath from old sawing machine wheels and other odds and ends, and is turning out some very artistic work in his line. He will soon be a first class cabinet workman.

—Anderson's Bazaar has done the farmers a great favor in taking all their surplus produce. The Bazaar has a surplus of its own to dispose of in the way of all kinds of goods which will be sold away down.

—"I don't take a man as rich as Crockett to go to Mr. Rowe's store and buy a big lot of goods," said Mrs. Smith. "The indulgent can afford a heap for a little money." She probably meant Crockett. Her other words we don't know anything about.

—Dr. J. W. Meador, of Pottsville, will remove to Hartford in two or three weeks to practice in his profession. We have known the Doctor for years as a skillful physician and no more polished or pleasant gentleman lives than he. We welcome him to our town.

—The revival at Beila is still going on and the excitement is at fever heat. Numbers have plucked fruit from the tree of eternal life and many are reaching for it but have as yet been able to gather only leaves. By and by as they grow taller in grace they will gather it in plenty.

—P. B. Moreland, Esq., of Barnett's creek neighborhood, has raised and sold over \$57 worth of fine watermelons. He has three acres and thinks the crop will net him \$150. This is quite a large profit, as melons, when they can be raised at all, are no more trouble than any other crop. The gentleman also has four acres of late and three acres of early potatoes which are very fine.

—The Greenville *Eden* gives an account of the attempted robbery of Esq. D. B. Hall near Paradise. Mr. Hall had received the bill of lading for a large amount of wheat, and the crowd at the post-office thought he had received a considerable sum of money. As he was riding home rather late at night, a man sprang out from the roadside and attempted to knock Mr. Hall from his horse with a club. A large bull dog following the *Spire* attacked the would-be robber, and while the contest between the dog and man was raging, the *Spire* hastily fled. This is the second attempt to rob Mr. Hall in the last year or two. We would advise him to carry "bull dog" of a different kind in the future. Such as to who the robber was.

ANOTHER LIBERAL OFFER.

Thirty Dollars Given for a Little Work. Three Premiums for Clubs.

We already have a circulation rarely reached by a country paper and we are desirous of doubling it before the close of the year. That desire has induced us to make the exceedingly liberal gift of over \$750 to subscribers to our paper and we now have this offer to make: We will give a premium of \$10 in gold to the person who will get us the largest club of subscribers before November 25th, 1882. To the person securing the second largest list \$5 in gold, and the third largest list \$2.50 in gold. The articles to be used on the day of the drawing. We make this provision, however: The club that gets the \$10 must contain, at least, fifteen names and the offer of \$5 holds good for no number less than eight names, and all, for both premiums, must be paid in cash for the year from date of subscription. In addition to the \$10 and \$5 offers we will give \$15 to any person who will get up a club of thirty names, or over, to be paid in same manner and at the same time as the other premiums. Thus, you see, you have a chance to make \$25 with a very little work. By getting up a club of thirty names or over you may get the \$10 for the largest club and also the \$15 for the largest club of thirty names or over. All subscribers sent in must be new ones or else they will not be taken into consideration in the big drawing, November 25th. Try your hand and see if you can't make \$25. You needn't send in all the names at once. Send them one, two, five or ten as you can get them. Always register money for clubs and charge us for postage if the amount sent is \$4.50 or over. If you are not a subscriber and don't want to get up a club please hand \$1.50 to some one who does and thus help them and us.

As Unmistaken Fraud.

Last week a tramp claiming to be a deaf mute and calling himself Harry C. Shreve of Meade county, appeared in town, begging for money to enable him to reach his friends at Hartford. In that county. In addition to being deaf and dumb, he claimed to be a partial paralytic from a recent attack of typhoid fever, and to be in a bad fix generally. Our town is not much infested with such vermin, and as a consequence the citizens took to him kindly, and he raised about \$15 amongst them. He

At a meeting of voters and tax-payers of the town of Hartford, held on the 22nd day of August, 1882, in which all the political parties were represented, the following named gentlemen were nominated and unanimously chosen as a suitable ticket to be voted for, by a Board of Trustees for said town, for the ensuing year, viz:

James E. Fogel, R. P. Howe, Dr. S. L. Berry, J. M. Klein, H. L. Smith, G. J. Berry, and E. P. Thomas.

And thereupon the following preamble and resolutions were enthusiastically adopted, viz:

WHEREAS, It has been and is still being circulated that the anti-school tax party in Hartford, is opposed to paying off the school bonds, and that they also want to break up the school.

Resolved, That neither of said charges bears any semblance of truth.

1. We are in favor of paying the last falling due of the school bond.

2. We are in favor of a good free school.

3. We are in favor of placing a man at the head of the school department of Hartford College, who is capable and willing to run it on his own merit.

4. We are materially opposed to the present high and oppressive tax that is being levied upon us for the maintenance of the high school, and forever opposed to the unfair favoritism and selfishness that has been manifested by the high tax party, (with a few exceptions) from beginning to end.

At the meeting adjourned to August 25th, 1882, the following preamble and resolutions were adopted:

WHEREAS, It has been falsely charged that the citizens of Hartford who are opposed to the present high and oppressive tax for school purposes, are in favor of mixed schools. Now be it

Resolved, While we are opposed to mixed schools, as being objectionable (as we believe) to both races, still we are in favor of extending such educational facilities to colored children as justice and equity they are entitled to, and are in favor of assisting to build a school house for them and in rendering them such other aid as is just and right.

J. E. FOGLE, Chairman.

We are authorized by Mr. Fogle who presided over the meeting, the proceedings of which are published above, to say that the paragraph of said proceedings that declared in favor of placing a man at the head of the College department of Hartford College, who is capable and willing to run it on his own merit was not intended as a reflection on either the ability or character of Prof. Alexander, nor was it so understood, but that the object of that language was to declare the belief that that department ought to be self-sustaining and run without taxation.

Public Meeting.

At a meeting of voters and tax-payers of the town of Hartford, held on the 22nd day of August, 1882, in which all the political parties were represented, the following named gentlemen were nominated and unanimously chosen as a suitable ticket to be voted for, by a Board of Trustees for said town, for the ensuing year, viz:

James E. Fogel, R. P. Howe, Dr. S. L. Berry, J. M. Klein, H. L. Smith, G. J. Berry, and E. P. Thomas.

And thereupon the following preamble and resolutions were enthusiastically adopted, viz:

WHEREAS, It has been and is still being circulated that the anti-school tax party in Hartford, is opposed to paying off the school bonds, and that they also want to break up the school.

Resolved, That neither of said charges bears any semblance of truth.

1. We are in favor of paying the last falling due of the school bond.

2. We are in favor of a good free school.

3. We are in favor of placing a man at the head of the school department of Hartford College, who is capable and willing to run it on his own merit.

4. We are materially opposed to the present high and oppressive tax that is being levied upon us for the maintenance of the high school, and forever opposed to the unfair favoritism and selfishness that has been manifested by the high tax party, (with a few exceptions) from beginning to end.

At the meeting adjourned to August 25th, 1882, the following preamble and resolutions were adopted:

WHEREAS, It has been falsely charged that the citizens of Hartford who are opposed to the present high and oppressive tax for school purposes, are in favor of mixed schools. Now be it

Resolved, While we are opposed to mixed schools, as being objectionable (as we believe) to both races, still we are in favor of extending such educational facilities to colored children as justice and equity they are entitled to, and are in favor of assisting to build a school house for them and in rendering them such other aid as is just and right.

J. E. FOGLE, Chairman.

We are authorized by Mr. Fogle who presided over the meeting, the proceedings of which are published above, to say that the paragraph of said proceedings that declared in favor of placing a man at the head of the College department of Hartford College, who is capable and willing to run it on his own merit was not intended as a reflection on either the ability or character of Prof. Alexander, nor was it so understood, but that the object of that language was to declare the belief that that department ought to be self-sustaining and run without taxation.
